TECHNICAL SKILLS

Backend: JavaScript, Nodejs, Restful API, JWT, C#, Java, Python, ASP.net

Frontend: ReactJS, Bootstrap, HTML&CSS, SCSS,

Database: SQL: MySQL, Oracle, PostgreSQL, NoSQL: MongoDB

Source code management: Git, GitHub

Tools/Methods: Trello, Agile, Scrum

LANGUAGES

Proficient in English

HOBBIES

🏐 Volleyball

ABOUT

I am a committed Frontend Developer with a solid academic foundation and extensive hands-on experience in frontend development. I bring strong proficiency in HTML, CSS, and JavaScript, along with a sharp focus on responsive design and user experience. My education have provided me with the skills needed to craft dynamic and user-centric web applications. I am enthusiastic about applying my technical knowledge and creative drive in a challenging, growth-focused environment.

EDUCATION

UNIVERSITY Aug 2021 – Present
NTTU – NGUYEN TAT THANH, Ho Chi Minh, Q12
Major: **Software Engineering**

PROJECTS CASE STUDIES

E-commerce Shoe Selling Website (21/05/2024 - 30/07/2024)

Position: Fullstack Developer

Description: Developed a comprehensive shoe sales management platform using ReactJS, Node.js, and MySQL. Responsible for fullstack development and system maintenance.

- **Frontend:** Created responsive UI with ReactJS and SCSS, including product display, search, shopping cart, and checkout. Utilized React Router for navigation and Redux for state management. Integrated RESTful APIs for product, user, and order data.
- **Backend:** Developed RESTful APIs with Node.js and Express, handling product, order, and user services. Managed MySQL database design. Implemented JWT for authentication and bcrypt for password security.

Technologies: ReactJS, Node.js, Express, MySQL, JWT, Redux, Axios, SCSS.

E-commerce Clothing Shop

Team size: 2

Position: Fullstack Developer

Description: Developed a clothing shop platform with ASP.NET and SQL, featuring product management, user authentication, and order processing.

- **Frontend:** Built the UI with ASP.NET MVC, including product browsing, filtering, and shopping cart features.
- **Backend:** Managed backend processes like order handling and user management, and designed SQL database schemas.
- **Functionality:** Implemented user registration, login, product management, order tracking, and payment processing.

Technologies: ASP.NET, SQL, HTML, CSS, JavaScript
